

Work as a Senior Consultant (m/f/d)

dataglobal 
empowering you!

► **How?** Permanent, full-time ► **When?** Immediately ► **Where?** Heilbronn / Home office

We work together with you - make your success stories come true with us!

What does your heart beat for? If it's working in a successful team on innovative and progressive customer solutions, then you've come to the right place. From the first requirements analysis to the last line of program code, we are motivated together to find the right customer solution, not the first one that comes along. For this, we are always looking for experts like you – professionals in your field.

In future, you can realize your strengths in the **Consulting** division.
Our innovative strength depends on our employees.
Why don't you become part of our team too!

Who is dataglobal? Everything you need to know about us can be found here: www.dataglobal.com

Exciting challenges are waiting for you

- Advising customers during the implementation of solutions using dataglobal CS
- Problem analysis and concept development for our customers
- Presentations of concepts to decision-makers
- Realizing concepts by implementing projects at the customer's place of business or remotely
- Liaising closely with our Product Development, Product Management, Sales and Customer Success divisions
- State-of-the-art working practices in the team based on the Design Thinking method - Appropriate training will be provided if you do not yet have the expertise

You are a specialist

- You have successfully completed a degree in computer sciences or a comparable course of study or can provide evidence of similar experience in practice
- You are skilled in the digital transformation of enterprises, enterprise content management and document management systems
- You are proficient in Windows Server, Active Directory, Exchange and/or Notes
- You are fluent in German and English

What we offer

- Opportunities for individual development and professional training
- State-of-the-art workplace, flexible working hours, and the potential to work from home
- Short decision-making processes, flat hierarchies and open communication
- Exciting projects in a growing, international team
- 50% allowance for company pension plan
- Free tea, coffee and mineral water
- JobRad – The bike of your choice through your employer
